

Content That Goes Beyond ReStructured Text

Erik Dahl

PRINCIPAL ARCHITECT

@dahlsailrunner www.knowyourtoolset.com

Overview

Add Custom CSS

Enable use of Markdown

Add support for different versions

Demo

Add a Custom CSS file into the mix

Why might we want one?

Create a custom stylesheet

Include it in build process

Reference classes via the `class` directive

Demo

Adding version support

Based on branches and/or tags

Set up long-lived “release” branch

Get “release” branch activated as version

Verify the behavior with our earlier changes

Summary

Added Custom CSS support

Added Markdown support

Added version support
